

Commercial

We service, maintain and repair all the inland water boats and boat trailers for the Environment Agency in the South East of England.

We are the preferred service agent for Eastbourne Borough Council and maintain their outboard engines they use on their rescue boats.

We have been looking after Brighton City Council's Lifeguard Rib for the last few years. Recently, we re-engined it with a pair of brand new Yamaha four stroke outboards.

We carry out all the service and maintenance work for Newhaven and Seaford Sailing Club on 'Ark' and 2 rescue ribs as required. We work closely with the Sailing clubs Commodore to insure these vessel are always ready for sea.
