Product short description:

No longer available. This has been replaced with International One Up.

This is a fast drying, single pack primer for use above the waterline. You can use it on timber, polyester, vinylester, epoxy, steel and aluminium, before you apply a single pack overcoat.

- General-purpose, one-part primer for use above the water
- Pigments contain aluminium flakes to create an anti-corrosive, protective barrier
- Quick drying and easy to sand
