Product short description:

The ACR ResQLink is a must-have for boaters seeking peace of mind and safety out on the water. This compact and buoyant personal locator beacon is designed to quickly and accurately transmit your location in the event of an emergency. Key features include:

- No subscription fee required, ensuring you're always covered without any ongoing costs
- Easily activated with a simple push of a button, sending out a distress signal to search and rescue teams
- GPS-enabled with a 406 MHz signal, allowing for precise location tracking within 100 meters
- LED strobe light for added visibility in low light or nighttime conditions

Stay safe and secure on your boating adventures with the ACR ResQLink by your side.
