Product short description:

3D Marine and Suzuki Marine continue to strengthen their European partnership with the launch of the TR54 series supplied exclusively with the Suzuki DF60 outboard. This offer is strategically priced to attract boaters seeking an affordable and versatile solution. It is quite simply the best price value option RIB package available.

The TR54 model from 3D Tender measures 5.25 meters, making it the ideal sized family RIB. The Premium Pack version offered in here the UK is available with a choice of two premium tube materials, VALMEX PVC from Mehler Germany or ORCA Hypalon from Pennel and Flipo, Belgium.

The TR54 Premium Pack comes loaded with extras all included at no additional cost including:

Seafirst Hydraulic Steering

50L inbuilt fuel tank

FUSION media system

Navigation lights

Bilge pump

Full-size sunbed

There is also the option to add a rear bench seat and roll bar if required.

The TR54 as well as delivering unbeatable value, also delivers on quality and performance. Make no mistake this RIB is built to the highest specification in both material choice and workmanship. With the option of an EXTREME Trailers EXT 750 Swing Trailer, the TR54 is easily transportable and because of its relatively low overall weight, can be launched and recovered by a single person, no problem. The standard console and bench seat means there's plenty of space for a family of five and the additional rear bench seat gives space for two more. Oversized tubes and a deep V hull profile delivers an extremely seaworthy boat ensuring a dry and secure ride even in more challenging conditions.

The TR54 and Suzuki partnership is a game changer in recreational boating delivering a high quality RIB at an unbeatable price point with no sacrifice on quality and performance. It is quite simply the best Family RIB package available.
