Product short description:

Hempel's Mille NCT Antifouling: Ultimate Protection for High-Performance Vessels

Introducing Hempel's Mille NCT, the pinnacle of self-polishing antifouling technology designed for yachts and motorboats that navigate at speeds of up to 25 knots. This product steps up as the successor to the respected Hempel Ocean Performer, providing an unrivalled antifouling solution for boats subjected to the most demanding marine environments. Whether your vessel is a sleek racer or embarks on extended cruising adventures, Mille NCT delivers unmatched protection.
