Product short description:

92-86166Q1 Superseded to **92-8M0133959**

Bellows adhesive is a premium-quality, marine-grade adhesive specifically designed for secure bonding and sealing in marine environments. Ideal for boat maintenance, this adhesive ensures a watertight seal, offering protection against leaks and extending the lifespan of your vessel's components. Perfect for bellows, transoms, and gaskets, its reliable performance stands up to harsh marine conditions.

- Superior adhesion for marine environments
- Ensures watertight sealing
- Resistant to saltwater and UV exposure
- Ideal for multiple boat maintenance applications
- Extends the lifespan of marine components
- Easy application and long-lasting durability
