Product short description:

The 92-802859Q1 2-4-C Lubricant with Teflon (227g) is a high-performance marine-grade lubricant designed to protect and enhance your boat's components. Perfect for harsh marine environments, it provides superior corrosion protection and reduces friction, ensuring smooth operation for critical parts. Whether you're out at sea or docked, this lubricant is your trusted partner to keep your vessel running efficiently.

- Specially formulated for marine use
- Enhanced with Teflon for reduced friction
- Provides excellent corrosion protection
- Ideal for multiple boat components
- Facilitates smooth operation in harsh conditions
- Convenient 227g size for easy handling
