Product codes:

Reference: YN129470-42532
EAN13: -
UPC: - MPN: -

Product short description:

The 129470-42532 impeller is a high-quality replacement part designed for efficient water circulation in your pump system.

Key Features:

- Durable construction ensures long-lasting performance
- Precision engineering for optimal water flow
- Easy to install and compatible with various pump models
- Helps maintain proper water circulation for improved equipment efficiency
