Product short description:

The Mercruiser 35-866171A01 Fuel Filter is an essential component for ensuring optimal performance and engine protection for your boat. Specifically designed for marine applications, this fuel filter effectively removes contaminants and impurities from your fuel system, helping to maintain smooth engine operation and reduce maintenance needs. Engineered for reliability and durability in harsh marine environments, it's a must-have for any boat enthusiast.

- Efficiently filters out contaminants for cleaner fuel flow
- Enhances engine performance and longevity
- Designed to withstand challenging marine conditions
- Easy installation for quick maintenance
- Compatible with a range of Mercruiser engine models
